

Safety Report Summary [DRAFT DOCUMENT]

This report serves as a Simulation Report Card for vehicle performance. The evaluated criteria are: On Road Operations, Coverage, Collisions

The On Road percentage quantifies the percentage of time the vehicle performed on the road. Operations on the road is not allowed.

On Road Operations: 0.0%

Road Entries: 0

The Coverage report quantifies the total coverage of the desired region to be mowed by the platform.

Coverage Percent: 0.0%

The Mower Collisions Display the total accounts of collisions made with individual types of assets in the Environment.

Mower Collisions

Object	Collision Count
Parking Sign	0
Guard Rail	0
Tree	0

Onboard Sensors

Sensor	Check
IMU	yes
GPS	yes
Depth Camera	yes
RGB Camera	yes
Radar	yes
Lidar	yes
FLIR	yes
Ultrasonic	yes
Bump Sensor	-
